

## Resupply Strategy for Long Distance Hikers

Food, Bunkhouses, Hostels, Cold Beer, Air Conditioning, Electricity, Showers and more.....

The following is a list of services along or near the trail. Our list includes everything from lodging to places to eat, resupply locations and much more. The list below does include contact information, but because phone numbers, website links and email addresses often change, we cannot guarantee our information is up-to-date. The Benton MacKaye Trail Association is constantly working to identify businesses and services along or near the trail that may enhance your hike experience.

As you plan your thru-hike on the Benton MacKaye Trail please consider doing the following:

- Obtain the [Benton MacKaye Trail Thru-Hikers Guide, 2020-21](#) Edition by SGT Rock & Kanga, available at the [Benton MacKaye Trail Store](#).
- [Sign Up](#) for Benton MacKaye Trail News, Updates and Announces.
- Join the Benton MacKaye Trail Association. [Membership Information Here](#).
- Volunteer on a Trail Work Day. Volunteer Information [Here](#).
- Check for the latest trail conditions [Here](#).
- Contact in advance, each business you plan to rely on during a hike and be aware that some businesses are seasonal while others have limited off-peak hours of operation.
- Be sure to confirm necessary details such as shipping address, operating hours, services and supplies available as well as the payment methods accepted.
- So that future hikers also will be welcome, show your appreciation and be polite and respectful toward these service providers.
- To help us keep our information up-to-date, please [contact us](#) with any corrections, additions or suggestions.

### **MAIL DROPS**

Mail drop packages should have the hiker's name and "Please hold for BMT Hiker" written clearly on the package. Many establishments will ask you to write your estimated date of arrival on the package as well. You should be prepared to show a picture ID to claim the "drop boxes". For complete details on mailing packages for resupply, see page 11 in the [Benton MacKaye Trail Thru-Hikers' Guide, 2020-21 Edition](#) by SGT Rock & Kanga available at the [Benton MacKaye Trail Store](#).

The Pacific Crest Trail Association has excellent information on planning for resupply – see link below.

[Pacific Crest Trail Association resupply recommendations](#)

**Note:**

March 13, 2021

- Mileages are given from the southern terminus at Springer Mountain and assume northbound travel, toward Big Creek. References to “right” or “left” at crossroads use this convention.
- Use caution when traveling by foot along any developed road.
- Mileages are from the [2017 Benton MacKaye Trail Data Book](#) available in our [Trail Store](#). You can hike with the Data Book and the information on this page, or you can get the [BMT Thru-Hikers’ Guide](#) that has this information listed and also is available through the [Benton MacKaye Trail Store](#).  
When two or more access points are listed for the same resource, the preferred one is asterisked (\*). Ex: The Coker Creek Welcome Center and Post Office can be accessed at mile 123.6 (via TN Hwy 68) or at mile 128.3 (via the Unicoi Turnpike Trail and / or Joe Brown Hwy). The mile 128.3 access point is preferred because it is closer (and downhill!). Consequently, it is asterisked.
- LT = Long Term supplier
- ST = Short Term supplier
