ALERTS

SHALLOWFORD BRIDGE

The Georgia Department of Transportation (GDOT) has re-inspected Shallowford Bridge. The bridge will remain open. New restrictions for crossing the bridge include:

- ◆ The weight limit per vehicle is three tons.
- ◆ The posted speed limit is five miles per hour.
- ◆ Only one vehicle is allowed on the bridge at a time.

In addition, the “section loss” on the lower gusset plates and connections is to be cleaned and painted.

The GDOT will re-inspect the bridge in six months.

SECTION 7b – SISSON DEVELOPMENT

Because of a blowdown, a short section of 7b in the Sisson development is impassible and the section is closed. The quarter-mile detour on Joann Sisson Road is well marked.

QUEST FOR NATIONAL SCENIC TRAIL
